    We announce the update to CNA's Integrated Ship Database (ISDB) as of the end of the first quarter of CY10 [Ref (a)]. You can find the database file (ISDB 2010-03.xls) on CNA's web site on the Operations and Tactics Analysis Division page with the address:

    www.cna.org/centers/operations-tactics/ship-database

    Here, you will see a link to a document titled *Basic Layout and Instructions* that describes basic features of the database and steps to take when first opening it [Ref (b)]. For additional background information, we refer you to the link identified as *User's Manual* for the original manual of December 2005 [Ref (c)].

    For this update, we made the usual changes, bringing the Naval Vessel Register (NVR), MSC Ship Inventory, and the Maritime Administration's Property Management and Archive Record System (PMARS) data current as of 31 March 2010.

    We welcome and encourage your suggestions for improvement of the database. Please contact Lynette McClain (mcclainl@cna.org or 703-824-2855) or Greg Suess (suessg@cna.org or 703-824-2231) if you have any questions or comments.
