CNA at the American Society of EVIDENCED BASED POLICING CONFERENCE

MONDAY, MAY 23, 2022

Risk Assessments and Officer Safety from an Evidence-Based Policing Perspective

9:00 a.m.-10:00 a.m.

The CNA Using Analytics to Improve Officer Safety project team will discuss the findings from both a pilot risk assessment model that used machine learning techniques to forecast risk of officer injury, and data collection on officer perspectives of perceived risks to their safety. Panelists will also discuss the implications of the findings, lessons learned, and general recommendations for agencies to improve officer safety.
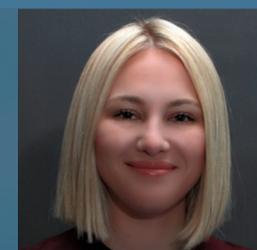

VINCENT BAUER
CNA Research Scientist

BRIDGETTE BRYSON
CNA Associate Research Scientist

BRITTANY CUNNINGHAM
CNA Senior Research Scientist

JESSICA DOCKSTADER
CNA Senior Research Specialist

### Field Training Research and Conducting an Experiment in an Academy Setting

10:15 p.m.-11:15 p.m.

The CNA team joins the National Association of Filed Training Officers to present findings from our recent research exploring approaches to field training. Panelists will discuss how field training programs can instill and promote a positive organizational culture and outcomes.

TOM WOODMANSEE
