1. The Population Representation in the Military Services Report (POPREP) uses data from DMDC. Breakouts of FY 2007-2009 accessions by service component and non-prior/prior service designation will not match reports by individual services because of differences in defining prior service accessions.

1. High quality individuals are high school graduates who are in Armed Forces Qualification Test (AFQT) categories I through IIIA.
2. Values reflect Armed Services Vocational Aptitude Battery (ASVAB) misnorming.
3. The Population Representation in the Military Services Report (POPREP) uses data from DMDC. Breakouts of FY2007-2009 accessions by service component and non-prior/prior service designation will not match reports by individual services because of differences in defining prior service accessions.

1. Affected by large number of unknowns in FYs 1973-1976. Because most unknowns were in their first year of service, and unlikely to be married, they were coded as unmarried in calculating the percentage.

1. The race groupings used in this table reflect the number of individuals who indicate a single racial identity. Individuals who self-identify as multiracial are counted in the "two or more" category.
2. First quarter total accessions were added to DoD second through fourth quarter subtotals in order to illustrate cross-year aggregate comparisons. FY 2003 percentages by race grouping are for the last three quarters of FY 2003.
3. In FY 2003, there was a change in the way DoD reported race/ethnicity data. However, the new race data were not available for all services until after the first quarter of FY 2003. As a result, the DoD data for individual race groupings reflect accessions for only the last three quarters of FY 2003.
4. The Population Representation in the Military Services Report (POPREP) uses data from DMDC. Breakouts of accessions by service component and non-prior/prior service designation will not match reports by individual services because of differences in defining prior service accessions.

1. This table has been constructed using pre-FY 2003 race/ethnicity categories for comparison purposes. Hispanics of all races are reported as a single group. The remaining individuals are listed as "Non-Hispanic White," "Non-Hispanic Black," or "Non-Hispanic Other."

2. The end of the fiscal year was moved from June 30 to September 31 during calendar year 1977. As a result, the data for FY 1977 reflect accession counts for five quarters.

1. The race groupings used in this table reflect the number of individuals who indicate a single racial identity. Individuals who self-identify as multiracial are counted in the "two or more" category.

2. The Population Representation in the Military Services Report (POPREP) uses data from DMDC. Breakouts of accessions by service component and non-prior service/prior service designation will not match reports by individual services because of differences in defining defining prior service accessions.

3. In FY 2003, there was a change in the way DoD reported race/ethnicity data. The new race/ethnicity data were not available for all services until after the first quarter of FY 2003. Therefore, DoD race/ethnicity data only represent the last three quarters of FY 2003.
