

# 21st Century Consequence Management

## Vulnerabilities

*The US has persistent and serious vulnerabilities...*

Large attack surface

Interdependent supply chains

High density population centers

Aging infrastructure facing extreme weather

Polarized political environment

Limited and large-scale nuclear capabilities

Extreme weather

Advanced cyber capabilities

Peer adversaries

Violent extremism

## Threats

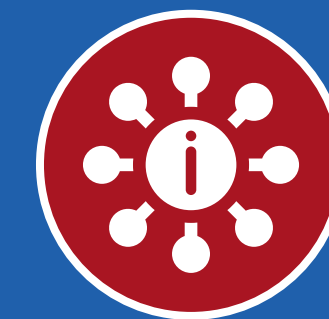

*The US has resurgent and advancing threats...*

## Significant Risks of Impact on Everyday American Life

*that require advanced planning*

**LONG-DURATION OUTAGES OF LIFELINE SERVICES**  
(e.g., power, water, fuel), often in unexpected places

**CONTESTED INFORMATION ENVIRONMENT**  
during preparedness and response

**SUPPLY CHAIN DISRUPTIONS**  
leading to scarcity
